

2021 CLINICAL PRACTICE GUIDELINES

JAN - JUN RELEASES

Brought to you by the Joint Trauma System, DHA Combat Support

Check out the new and updated clinical practice guidelines (CPGs) published by the Joint Trauma System (JTS), the Defense Center of Excellence for Trauma. JTS CPGs are built on scientific evidence-based recommendations derived from clinical research and data analysis. Guidelines are linked to best practices and lessons learned.

Diagnosis/Treatment Algorithms ♦ Clinical Protocols ♦ En Route Care ♦ Best Practices ♦ Lessons Learned ♦ Patient Safety

NEW
